

PLA50F/100F/150F-24 Special Guarantee for Higher Operating Temperature

K. Nagahara
GS Design Dept.
19-Dec-14

1. Operating Temperature

We guarantee the operating temperature shown in the following derating curve:

2. Applicable Models

- PLA50F-24
- PLA100F-24
- PLA150F-24

3. Operating Conditions

- A-type mount (normal mount)
- Expected life: 2 years (24-hour consecutive use) for 100% at 50°C.
- Safety approvals apply to 100% at 45°C or less.

4. Others

- As for the other output voltage models and the other mounting types, contact us for advice.
- See Instruction Manual for the standard specifications.
